SUBJECTS FOR IGCSE STARTING SEPTEMBER 2014

IGCSE is International General Certificate of Secondary Education. It is offered by a number of examination boards based in UK. APIS uses CIE (Cambridge International Examinations), which is the most widely used international examination provider in the world.

IGCSE is a 2-year course taken over Years 10 and 11, usually ages 14-16. Some subjects are expected, most are optional.

Mandatory subjects
Mathematics
English (first language) or English (second language)
Islamic Studies (for Malaysian Muslim students only)
Foreign Language Malay (for Malaysian students only)

Optional subjects
Some subjects are timetabled so that lessons are at the same time, so the student has to choose one from two or three. Below are the options for Year 10 starting in September 2014. Only one subject in each line can be chosen. The next Year 10 starting in September 2015 may have different options.

Physics or Economics
Chemistry or Art
Biology or Business Studies
History or Geography or English Literature
French or ICT (Information and Communication technology)
Additional Mathematics or individual study

Non-examined subjects
Physical Education
Personal, Social and Health Education (for non-Muslim students)
